X-88 Gray

LIMITATIONS

In no way is FACADESXi responsible for color variations, color variations from batch to batch, natural weathering and fading, fading due to porous substrates, or color correctness after the product has been applied.

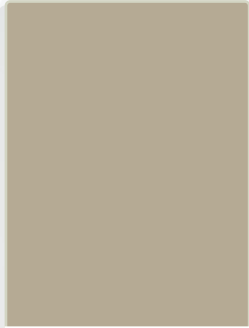

X-50 Colonial White

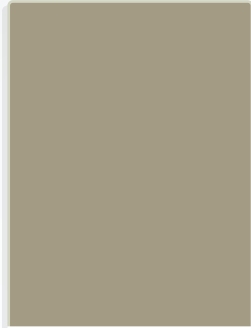

Finish color may show slight variation depending upon the substrate, texture, and application process.

Colors may look different in natural daylight versus indoor lighting.

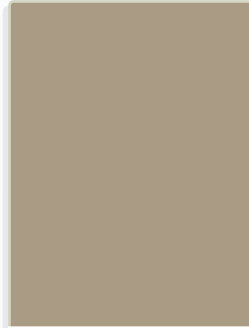

A sample/mockup should be submitted using the same tools, methods, and products that will be used on the project.

Xi-ColorSure Packs

Available in these standard colors and may be added to the following products up to 4 Packs per bag to achieve different depths of each color.

Xi-Hacienda Sand

Decorative Cement Stucco Finish for sand float finish with many different texture options such as Flat, Castroville Float, Knock Down or a skip trowel. Made of all natural earthen materials this finish will produce a distinctive look.

Xi-Hacienda Smooth

Decorative Cement Stucco Finish for a clean, modern look or an old world mission plaster style. Made of all-natural earthen materials with texture imperfections and tonal variations; gives the smoothest "Santa Barbara Mission".

Xi-Limestone

Polymer modified plaster to create a versatile and customizable option for creating a unique limestone look.

Xi-Liscia Plaster

Cement based product that can be troweled ultra-tight on interior walls, with a soft mottled look to create depth and art in any room.

Xi-VersaPlast

Polymer modified stucco base coat for skimming and leveling concrete, concrete block, stucco and foam shapes.
