Xi COLOR COLLECTION

Inspiring Colors for Elegant Textures

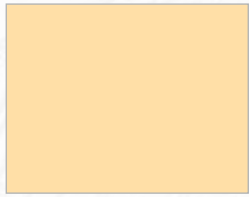

Hundreds of popular colors to choose from; custom color matching available.

Finish color may show slight variation depending upon the substrate, texture, and application process. Colors may look different in natural daylight versus indoor lighting. A sample/mock up should be submitted and approved using the same tools, methods and products that will be used on the project.

				
Polar Bear Xi-001WH	Polar Ice Xi-002WH	Cloudy Day Xi-003GR	Spurs Gray Xi-004GR	Tephra Ash Xi-005GR

Dusty Tan Xi-035TA	Easter Green Xi-036PA	Earth Dust Xi-037BE	Colorado Xi-038PI	Himalayan Salt Xi-039 PI

We recommend using colors with a light reflectance value (LRV) of 20 or greater when installing Xterior Insulation Systems.

PLEASE NOTE: Dark colors and those derived from organic colorants are more susceptible to fading over time, and may exhibit signs of wear, marring, and efflorescence more prominently compared to a lighter shade. Dark colors may increase the temperature of the Polystyrene Boards, resulting in a temperature that exceeds the allowable limit of 160°F (71°C).

Bamboo Basket Xi-040YE

Mars Sand Xi-041PA

Silent Harvest Xi-042PA

Burnt Orange Xi-043PA

Hawaiian Orange Xi-044OR

Color appearance will change with texture

LIMITATIONS

In no way is FACADESXi responsible for color variations, color variations from batch to batch, natural weathering and fading, fading due to porous substrates, or color correctness after the product has been applied.

Avoid installing different batches of finish side by side as they may vary slightly.

Avoid application in direct sunlight.

New Finish/Coatings may not match existing aged material of the same color.
